ABOUT US

At Almaha Medical, we believe that only the excellent instruments can give the best possible health care. That is why we strive to provide medical products of the highest standards.

Almaha Medical is ISO 9001 & ISO 13485 certified, FDA compliant, and CE certified. We are working with the Qatari government sector, and have a partnership with more than 20 European and American companies of the same field.

“

We are Almaha Medical,

the first & best

manufacturer of same medical supplies products in the State of Qatar.

”

HISTORY

Almaha Medical was established in 2015 as a Qatari Limited Liability Company within the family business “Shabab Entrepreneurship Group”. The owner, a physician, and a Qatari businessman, Dr. Mohamad Alnaemi, ventured the field of medical supplies trading with a mission to provide excellent-quality medical consumables. This mission has been actualized through the current operation of Almaha Medical Supplies Factory in New Industrial Area, Doha, Qatar.

THE FACTORY

Almaha Medical Supplies Factory is one of the national projects in the State of Qatar that aim to strengthen the local industries. The factory's main objective is to cover the needs for medical goods in the local market, then expand to GCC countries, and ultimately, export to other countries around the world.

With 3,000 sqm land area in the New Industrial Area, the factory has more than 15 production lines for different medical supplies. The primary products of the factory are medical gauze, alcohol swabs, surgical gloves, head and shoe covers with other more and more products, and most especially, surgical face masks that have a current production capacity can reach to 12 million surgical masks per month.

MISSION & VISION

Mission

We are committed in providing the *best and most recent* medical products to further improve the medical care in the State of Qatar. We shall establish strong global partnerships that will allow exchange of experience and technology to obtain products of excellent quality with recognized efficiency.

Vision

We aim to be a *national and global leader* in drug and medical products manufacturing and distribution. We will accompany the research institutions in the development of varieties of medical products to strengthen the national industries and to be highly capable in competing in the international market.
